

JAZZ BEYOND

Jazz and Beyond is the ACP's fall concert series showcasing a wide range of jazz in the intimate setting of the Solley Theater at the Paul Robeson Center. The concerts cover the spectrum of jazz styles from original compositions, standards and show tunes, to bebop, samba, funk, modern, avant garde, and fusion. These concerts present live music in an uncluttered soundspace, bringing listeners into the middle of the action and creating an exchange with the humanity of the musicians and the vibrancy of the music. This joyful and spontaneous creativity is the essence of jazz, and we hope you will join us!

The Paul Robeson Center for the Arts' Solley Theater seats 120 and combines an experience that is intimate and lively with one of the best listening rooms in New Jersey. The ACP's mission of *Building Community Through the Arts* is exemplified in the *Jazz and Beyond* concerts by often featuring regional and touring musicians who bring their art to the greater Princeton area.
